The Black Paths

ACTIVE TRAVEL SIGNATURE SCHEME

The Department for Infrastructure is developing proposals for the Black Paths Active Travel Signature Scheme, which will extend and upgrade the existing Black Paths network to create a continuous walking, wheeling and cycling link between Portadown and Lurgan Train Stations via Craigavon, approximately 10km in length. The scheme will improve connectivity across the existing Black Paths network, creating stronger links between communities, key destinations, public transport hubs, employment areas and local services, by delivering an attractive, direct and safe route for all active travel users.

Have your say

We want to hear your views to understand local issues and opportunities from within the study area. Join the project team at the drop-in event that is most convenient for you.

Portadown
Date: **Monday 16th November 2026**
