# Section 1 – Applications Received

**Inspection of licence applications** can be requested under the provisions of Regulation 8 of the Goods Vehicles (Licensing of Operators) Regulations (Northern Ireland) 2012 by anybody who holds statutory objector status. Applications may be inspected free of charge at the Transport Regulation Unit office in Belfast by any person who carries written authorisation to act in that capacity.

**Objections against published applications** may be made in writing by a Chief Officer of PSNI, a District Council, a Planning Service or a prescribed trade union or association within 21 days of the date on which notice of an application is published in Applications and Decisions. Objections must be made either on the grounds that any of the requirements listed in Section 12 of the Goods Vehicles (Licensing of Operators) Act (Northern Ireland) 2010 are not met and/or that a nominated operating centre will be unsuitable for use as such. A copy of the objection must be sent by the objector to the applicant at the same time that it is sent to the DfI Central Licensing Office. The onus of proof in terms of the grounds on which an objection is lodged lies with the objector.

**Classification of Operator Licences** – There are three classes of licence:

- A **Restricted (R)** licence authorises the use of a goods vehicle on public roads in the United Kingdom for the carriage of the licence holder's own goods in the course of his trade or business. The licence holder cannot carry goods for other people for hire or reward;
- A **Standard National (SN)** licence allows the licence holder to carry both his own goods and goods for other people for hire or reward, on public roads in the United Kingdom. He can also carry his own goods on journeys abroad;
- A **Standard International (SI)** licence allows the licence holder to carry both his own goods and goods for other people for hire or reward. These activities can be undertaken both in the United Kingdom and on international journeys.

# Section 3 – Schedule 1 Applications

**Schedule 1** to the Goods Vehicles (Licensing of Operators) Act 2010 allows, in certain situations, the transfer of operating centres from one existing licence to either another existing licence or as part of a new licence application. A range of qualifying criteria has to be met, with approval being at the Department's discretion. An important consideration in the process is any environmental history relating to the subject operating centre or any potentially adverse environmental impact resulting from the transfer. Legislation prevents any statutory objection against the Schedule 1 element of an application.

The form to request a transfer of operating centre as part of a new or variation application is available here: GV(NI)72 - Application to transfer a Goods Vehicle Operating Centre - Schedule 1 | Department for Infrastructure (infrastructure-ni.gov.uk).

**New Applications (Section 3.1)**: where the Department has given a direction that the provisions of paragraph 2 of Schedule 1 shall apply, objections may only be lodged against the published application under Section 11(1)(a) of the 2010 Act, disregarding the suitability of the operating centre for use as such by the applicant as set out in Section 12(C)(5) of the Act.

**Variation Applications (Section 3.2)**: where the Department has given a direction that the provisions of paragraph 4 of Schedule 1 shall apply, objections may again only be lodged against the published application under Section 11(1)(a) of the 2010 Act unless that transfer can be accommodated without any overall increase in the existing overall vehicle/trailer authorisation on the receiving licence, in which case there is no statutory requirement to publish details of that application. However, **Section 3.3** does detail any such applications in order that interested parties are made aware of changes to authorised operators at listed operating centres

**A transcript of the recorded proceedings of public inquiries** (either in full or in part) may be ordered from the Transport Regulation Unit. The cost of the transcript varies according to demand and size of content and the office will be able to advise on the scale of charges when an order is placed.
