Dear Sir

Re: Schedule 6 - proposal to pipe and discharge to a watercourse, Tyndale Gardens, Belfast.

DfI Rivers has assessed your proposals to relay 450mm dia concrete pipe and discharge a maximum 3 l/s of storm water to the Cliftonville Stream as shown in drawings 17459 - C003 P4 & 17459 – C003 P4 and confirms the Department's consent to these proposals under Schedule 6 of the Drainage (NI) Order 1973.

In giving its consent the Department would stress that it is your responsibility to ensure the proposed works do not result in any obstruction to flow arising from blockage, structural failure, poor workmanship or any other reasons.

This consent is valid for a period of 12 months from the date of this letter. If the proposals are not completed within this period of time they should be resubmitted for further appraisal.

Applicants should also note that in accordance with Para 11 of Schedule 6 of the above Order any consents/approvals given by DfI Rivers under Schedule 6 shall not affect the liability of any applicant to comply with other legislation relevant to works undertaken in pursuit of such consents/approvals.

Please quote the reference number above on any future correspondence.

Yours Faithfully

Thomas McCloy
