

## BODY CONDITION

## INFORMATION

This part of the examination applies to all vehicles.

## METHOD OF INSPECTION

Examine the bodywork and its components for excessive corrosion or damage resulting in sharp edges, which are likely to cause injury.

## REASON FOR REJECTION

	<b>Deficiency Category</b>
1. A sharp edge or projection, caused by corrosion or damage, which renders the vehicle dangerous to other road users, including pedestrians.	MAJOR

**Note:**

This section refers to body and components, which are non-load bearing.
